

CARBON FIBRE SWIM LADDERS

C-Quip's carbon fibre swim ladders are where form and function proudly shake hands! It is where elegant curves and ergonomic oval sections deliver smart engineering.

C-Quip's exceptionally light weight ladder is a pleasure to use and yet light enough for one crew member to carry. When not in use it can be effortlessly detached and stowed.

Available with teak tread or painted non-skid surface. Whether you desire the super-sleek look of clear coated carbon fibre or painted to the colour of your choice, we can manufacture to your requirement.

- **Improved lightweight design, starting from 14 kilograms**
- **Designed for style and comfort of use**
- **Bouyant design; It won't sink if accidentally dropped into the sea**
- **Able to be carried by one crew member**
- **Easily portable; avoids damage to yacht paintwork**
- **Lockable deck inserts to secure your ladder**
- **Offset deck stanchion option to suit any existing deck sockets**
- **Compact; handles fold in with ease for storage. Detachable lower steps**
- **Available with protective carry bag or mountable storage hooks**
